Leaders are Readers

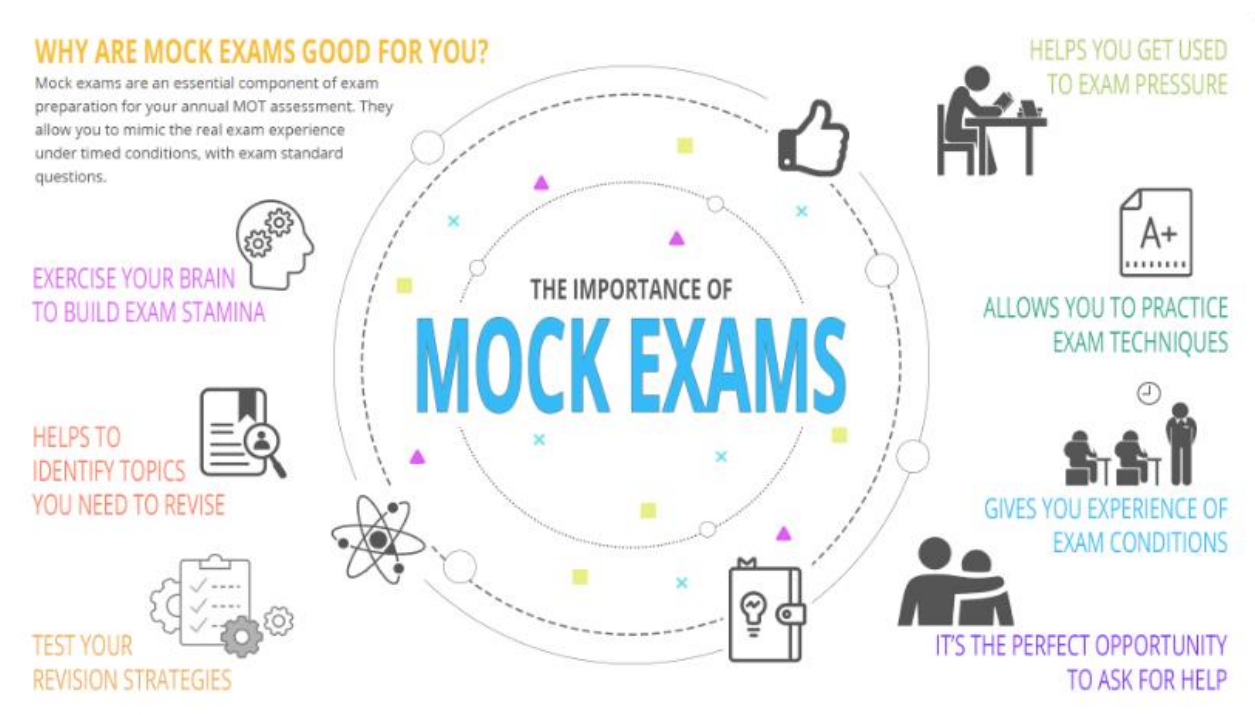

WORLD
**BOOK
DAY**

7 MARCH 2024

Sixth Form books – the following book list contains titles to students in Year 12 and Year 13. We've tried to pick a selection that is wide-ranging, enjoyable, challenging, and diverse. **The lists contain page-turning fiction to encourage reading for pleasure, novels and nonfiction to interest students following specific career paths, self-help guides to prepare for university and life, and provocative and debate-worthy material to discuss at interviews, in book clubs or socially in conversation.**

<https://schoolreadinglist.co.uk/secondary-ks3-ks4-reading-lists/sixth-form-reading-list-books/#year-12>

<https://schoolreadinglist.co.uk/secondary-ks3-ks4-reading-lists/sixth-form-reading-list-books/#year-13>

Year 13 have now completed their first week of Mock Exams.

Well done to you all for your excellent preparation and conduct whilst in the exam venues.

One more week to go!!

Remember we are here to help if you need us.

To discuss progress there will be an invite only Parent evening on **27th March.**

4 – 7.30pm

All details and invites will be sent out by email on 18th March.

This will be a face to face event in the Sixth Form Block.

VOLUNTEERS NEEDED!

We are looking for a few volunteers to help out with selling refreshments for the Bugsy Production during the interval.

18, 19, 20 March

If you are interested and could help out on one or two of the evenings, please let Mrs Stubbs know.

Monday 18th – production starts at 5.00 pm (so interval will be around 5.45 pm)

Tuesday 19th – production starts at 6.00 pm (so interval will be around 6.45 pm)

Wednesday 20th - production starts at 7.00 pm (so interval will be around 7.45 pm)

Tickets are now on sale from Main School Reception.

£10 for adults, and £5.00 for students.

Inspire Inclusion - Army Apprenticeships and Careers

Date & Time Mar 5, 2024 04:00 PM in [London](#)

Description In celebration of International Women's Day 2024, join this exclusive webinar in partnership with the British Army to help to inspire the next generation of females about the amazing career opportunities available to them through the Army.

We will be joined by a panel of inspiring female ambassadors from the Army, representing professions across 7 different career streams, including:

- Medical
- Intelligence & Communications
- HR & Finance
- Combat
- Logistics & Support
- Engineering
- Music

This event is ideal for female students in Years 9-13, but is open to all students and teachers/careers advisers or parents/carers. Attendees will get the opportunity to visit and hear from female soldiers from 2 of the career streams during the webinar.

We will also be joined by keynote speaker, Rose Worthy, who is the Diversity and Inclusion Operations Manager for the Army Recruiting Group at Capita, to hear more about the Army's support for female soldiers and their vision going forward.

Go the Extra Mile Challenge

10K Completed! Well Done Lads!

Jeric Joseph and **Jacobi Abraham** ran the 10K to fundraise for Wiltshire Air Ambulance during Half Term. **Shriyans Gurung** also joined them on the run around Coate Water to support, encourage and pace the duo and keep them on track. They undertook their run on Saturday 10 February as there was a lull in the weather. Although there was some rain and a few muddy patches, nothing too difficult to negotiate. Jeric completed the run in 1 hr 30 mins and Jacobi completed it in 1 hr 8 mins. Congratulations!

The boys said: “I thought the run was a great challenge for a great cause” Jakobi

“It was a great opportunity to support a charitable cause” Jeric

“Never back down, keep going” Shriyans

They raised a fabulous **£108.00**

<https://www.imperial.ac.uk/be-inspired/schools-outreach/secondary-schools/summer-schools/>

About our summer schools

Our summer programmes run between May and August, providing immersive STEM experiences for students from underrepresented backgrounds who attend a non-fee-paying school or college in the UK.

All our programmes are fully funded by the College (and our partners), meaning they are free for successful applicants. Our programmes are typically over-subscribed, and applicants must meet at least one of our eligibility criteria to be considered.

Applications for our summer 2024 programmes will open on 9 January. You can learn more about our programmes, including the application deadlines, using the links below.

Year 12 Work Experience Programme

This programme will give you an insight into the exciting world of research at Imperial College.

About Work Experience Programme

The work experience programme is designed to give students an insight into life as a researcher and other careers in higher education. Students will experience working life, from the daily commute to managing their time and navigating a professional environment, all whilst gaining a fantastic insight into the exciting world of research at Imperial. In 2024, the following departments will take part:

- [Bioengineering](#)
- [Grantham Institute for Climate Change and the Environment](#)
- [Materials](#)
- [Mathematics](#)
- [Physics](#)
- [Chemical Engineering](#)
- [National Heart and Lung Institute \(NHLI\)](#)

What to expect?

During the five-day programme you will get an insight into research being conducted within your chosen department and academic careers associated to this field of study. The programme will attempt to simulate typical working life. You will be expected to commute to and from campus each day, have lunch with your peers and meet deadlines. You will also have access to research and teaching laboratories, workshops and specialist technical suites whilst in your department.

Please note that each department runs their own timetable, and the content of each stream varies.

As well as experiencing the world of academic research, students will also be given talks relevant to applying to university covering topics such as writing effective personal statements and interview skills. You will be supported by a student ambassador throughout your time on the programme. Our ambassadors will help you navigate the campus, provide support during tasks and be able to answer your questions about university life.

At a glance

- Applications open: 9 January 2024
- Applications closed: 6 March 2024
- Decisions released: 3 May 2024
- Dates: 1 - 5 July 2024
- Non-residential
- For year 12 students

At the end of the week there will be an academic-style conference where students will work in small groups to present a poster and short oral presentation about their time on the programme to their peers, leaders and invited guests.

This summer school is fully funded (free to successful applicants), which includes all course fees, materials as well as lunch. Travel is not included, and it is expected that most participants will live in or near London (or have family in London they can stay with for the duration of the programme). However, we may be able to offer successful applicants financial assistance for their travel.

Apply Here deadline is fast approaching:

PATHWAYS APPLICATIONS OPEN

Applications for our Sutton Trust [Pathways 2024 programmes](#) are open but closing dates are soon.

Applications for our [Pathways 2024 programmes](#) – closing dates soon! Sutton Trust supports young people from less advantaged backgrounds to access leading universities and careers. In partnership with universities and employers, we run engaging programmes that give students practical advice and leave them feeling inspired and more confident about their future. Our programmes are completely free to attend. All costs – including travel, accommodation, food and activities – are paid for by the Trust and our partners.

Our Pathways programmes cover five competitive professions:

[Banking & Finance](#)
[Consulting*](#) (solely online)

[Engineering](#)

[Law](#)

[Medicine](#)

Applications close across December and January, with deadlines specific to each individual programme and university.

Head to our website to apply.

Are you ready for
National Careers Week?

National Careers Week (4-9 March) is fast approaching! There's no better time to raise students' career aspirations, increase their awareness of different jobs and give them a head start on their futures.

Did you know that there's a career for everyone in the NHS?
Find out more about the 350+ careers in the NHS

<https://www.stepintothenhs.nhs.uk/careers>

Interview tips

An interview is a conversation between you and an employer to see if you're the right fit for a role.

It's important to make sure you know what to expect from an interview and to prepare as best as you can.

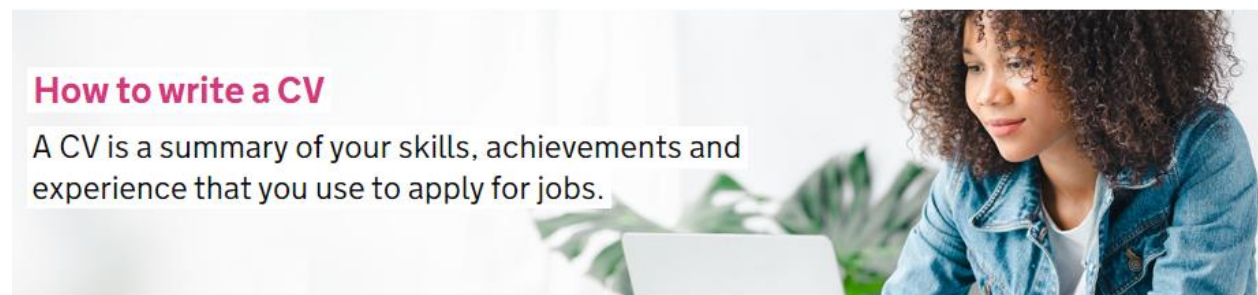

What to expect in an interview

Whether you're interviewing for a job, training or a qualification, the interview experience will be similar.

A potential employer may not be expecting you to have done the job before, but they'll be looking for relevant experience or strengths.

This is the same for interviews for qualifications or training. They'll be looking at your education, experience and interests.

<https://nationalcareers.service.gov.uk/careers-advice/interview-advice>

How to write a CV

A CV is a summary of your skills, achievements and experience that you use to apply for jobs.

Why you need a CV

A CV is your first chance to promote yourself. A good CV might get you a job interview.

You usually need a CV to apply for a job or to give to an employer you'd like to work for.

<https://nationalcareers.service.gov.uk/careers-advice/cv-sections>

Application form advice

An application form is an official way to apply for a job or training course with a company.

You can use an application form to show why you would be a good choice for the course or job.

<https://nationalcareers.service.gov.uk/careers-advice/application-forms>

Apprentice Nation will be hosting a **free webinar, 'Demystifying Careers in Engineering' (7th March: 7pm - 8pm).**

During this, we will be providing insight into the breadth of roles/opportunities available in engineering. A panel of guest speakers with engineering backgrounds will be sharing their career journey and be on hand to answer young people's questions.

That's not all. By engaging with the webinar, attendees will be entered into a prize draw to win a pair of Apple AirPods.

APPRENTICE NATION

Prepare for both **British Science Week (8th – 17th)** and **National Careers Week (4th – 9th)** with **Energising Futures**.

Did you know?

Jobs you might do in future might not even exist today

1.6 million jobs could be created in the UK in the transition to a greener future

The job market is changing and people will need different skills in the future

1 in 5 careers in the future will be a green career

People with green skills will be more employable and could earn more money in the future

What are green skills?

Green skills are the skills you need to build, to prepare yourself for a green career in the future.

First, build your **STEM skills and knowledge** and **essential skills**. Then, you can apply these skills to green contexts and have **green impact** in the green economy.

Which core skills do you already have?
Which do you need to develop?

The diagram shows green skills are built from STEM and essential skills to green impact.

STEM skills and knowledge

- scientific literacy / knowledge
- developing inquiry
- critical thinking
- problem solving

Essential skills

- collaboration
- communication
- mathematical literacy / knowledge
- digital literacy (using technology)

Green impact

- resilience
- adaptability
- creative thinking and innovation
- global citizenship

Find out more about Green Jobs here:

<https://www.ase.org.uk/>

WEBINARS FOR YOUR STUDENTS THIS
British Science Week.

To celebrate British Science Week, we've got a series of science-related webinars designed to help your students get an insight into various subjects, potential careers, and student life at university.

They'll explore diverse scientific disciplines and gain valuable perspectives on pathways available, including the impact of science in our everyday lives.

Sessions coming up:

- Thinking Like a Environmental Scientist – 11 March
 - Thinking Like a Geographer – 12 March
- Physics: A Brief History of Our University – 13 March
- Studying Sport & Smashing Stereotypes – 14 March
- Eyewitness Memory and Psychology Careers – 15 March

And there's plenty more subject sessions available to book too. With topics ranging from engineering to languages and creative courses – your students will explore

student life and learn about career opportunities in various fields.

https://www.port.ac.uk/collaborate/schools-and-colleges/subject-specific-events?utm_medium=organic-email&utm_campaign=&utm_source=&utm_content=&utm_term=#BSW

Dancing 9.00 - Midnight

**Come along and Celebrate the end of your Sixth Form studies
and the start of your future with your Teaching Staff**

£36.00 - PAY ON PARENT PAY— £20 DEPOSIT NEEDED BY 25 MARCH

Hot Cross Bun Brownies

It doesn't have to be Easter to enjoy Hot Cross Buns! Here's an opportunity to combine 2 favourites.

The 1st of March always says spring to me, so I hope you enjoy these.

Ingredients:

- 175g salted butter.
 - 80g golden syrup
 - 280g golden caster sugar
 - 1 tbsp ground cinnamon
 - 1 tbsp grated nutmeg
 - 320 g dark chocolate (70% cocoa) chopped into small pieces.
 - 4 medium eggs beaten.
 - 70 g plain flour
 - 2-3 hot cross buns, split, toasted, and cooled.
- You will also need a 20 cm square tin.

Method:

1. Melt the butter and syrup in a large saucepan over a medium heat. Add the sugar and spices, then simmer for 3-4 minutes until dissolved. Tak off the heat and add the chocolate and mix with a wooden spoon. Add the beaten egg and mix in until smooth. Finally add the flour and beat until incorporated.
2. Line a 20 cm square tin with baking paper. Tear the toasted hot cross buns into rough 2 cm square pieces and scatter them into the tin.
3. Heat the oven to 180C/160C fan and Gas 4. Spoon the brownie mix into the tin and allow to stand for 15 minutes so the mix settles over and into the buns.
4. Bake for 35-40 minutes until gently set and wobbly in the middle. Don't be tempted to leave the brownies in the oven longer than the cooking time as they will become dry.
5. Allow to cool, then chill overnight. The next day, turn out, remove the baking paper and trim the edges. Turn the right way up and cut into squares to serve. A knife dipped into hot water will make this much easier.

TIP

If you are making for Easter, you could substitute the hot cross bun with pieces of honeycomb, biscuit or pretzel and leave out the spices.

You can also pipe melted white chocolate crosses over each brownie. to create a festive hot cross bun appearance.
